DURATION OF STUDIES
2 years (4 semesters)

LANGUAGE OF INSTRUCTION
French
Passive knowledge of English is required.

ADMISSION CONDITIONS
Bachelor’s in Educational Sciences or Psychology. Candidates who hold Bachelor’s degrees in Human Sciences other than Educational Sciences and Psychology may be admitted subject to approval by the programme committee. If admitted, said students must simultaneously enrol, from the first semester, in the non-specialised Complementary Certificate in Educational Sciences.

Master’s Programme
THE MASTER IN EDUCATION - PSYCHOEDUCATIONAL APPROACHES TO DISABILITIES

trains students to treat and find responses to a multitude of challenges in the field of special education. This may consist of current questions surrounding the inclusion of children, adolescents and adults who have serious difficulties, disorders or impairments at school, in institutional settings and/or in the working world, as well as in society at large. It may also involve helping to rebuild the social connections of people who, as a result of various difficulties over the course of their lives, now find themselves on the margins of society. In this Master's programme, students develop their theoretical knowledge and their analytical and intervention skills with regard to these issues, with the primary aim of improving the living standards of people who frequently find themselves in situations of disability. This MA offers several internships to help students translate what they learn into practical skills.
STUDY PROGRAMME
4 semesters (max. 6 semesters) | 120 ECTS credits

Foundations of psychoeducational perspectives
