Master's Programme

THE MASTER OF DENTAL MEDICINE

offers in-depth training in the following fields: preventative dental medicine, oral medicine and pathology, oral surgery, dento-maxillo-facial radiology, cariology, endodontics, dental care for children, orthodontics, fixed prosthesis, gnathology, periodontics, dental biomaterials, gerodontology and partial dentures. This course offers a pathway to the Federal Diploma in Dental Surgery.

In accordance with the law on health-care professions (LpMed), all examinations take place on a faculty level, with the exception of those that take place after conferral of the Master's degree, which are federal and common to all Swiss medicine faculties (Federal Examination in Human Medicine - EFMH).

STUDY PROGRAMME

4 semesters (max. 8 semesters) | 120 ECTS credits

First and second-year courses

120 credits

- Clinical training: preventative dentistry; cariology/endodontics; medicine and oral pathology; orthodontics; oral surgery; biomaterials; fixed prosthesis and gnathology; geriatric dentistry and dentures; radiology/radiation protection; paediatric dentistry; periodontics; maxillo-facial surgery; general surgery; nose and throat

LEVEL OF FRENCH REQUIRED BY UNIGE

Eliminatory general test for non-Francophones, with the exception of the following cases:

www.unige.ch/frenchexam

PROFESSIONAL PROSPECTS

Given the highly specialised nature of the dentistry programme, most graduates remain in the field and work in private dental practices. Others choose a research orientation or find work in a clinic attached to a social, school, or hospital service.

UNIVERSITY TAXES

500 CHF / semester

REGISTRATION

Deadline: 30 April 2020
(28 February 2020 for applicants subject to a visa because of their nationality, as set forth in Swiss federal regulations)
