Master's Programme
THE MASTER IN ECONOMICS

is based on deep understanding of modern economics and econometrics building on the strength of the faculty. We will provide our students with skills that are marketable in academia as well as in international organizations, private and public companies. The program will focus on providing the most advanced tools in core micro/macro economics, and econometrics; at the same time the students will have a choice of focused and exciting electives, and could also specialize in econometrics.

AVAILABLE CONCENTRATION:

• Econometrics
